

BIN TENDING IN THE PALM OF YOUR HAND

Sorter operators often complain about the difficulties of monitoring bin operations in multiple locations while tethered to a fixed workstation. Mobile BinTender™ solves this problem using a tool that most people already have in their pocket: a smartphone!

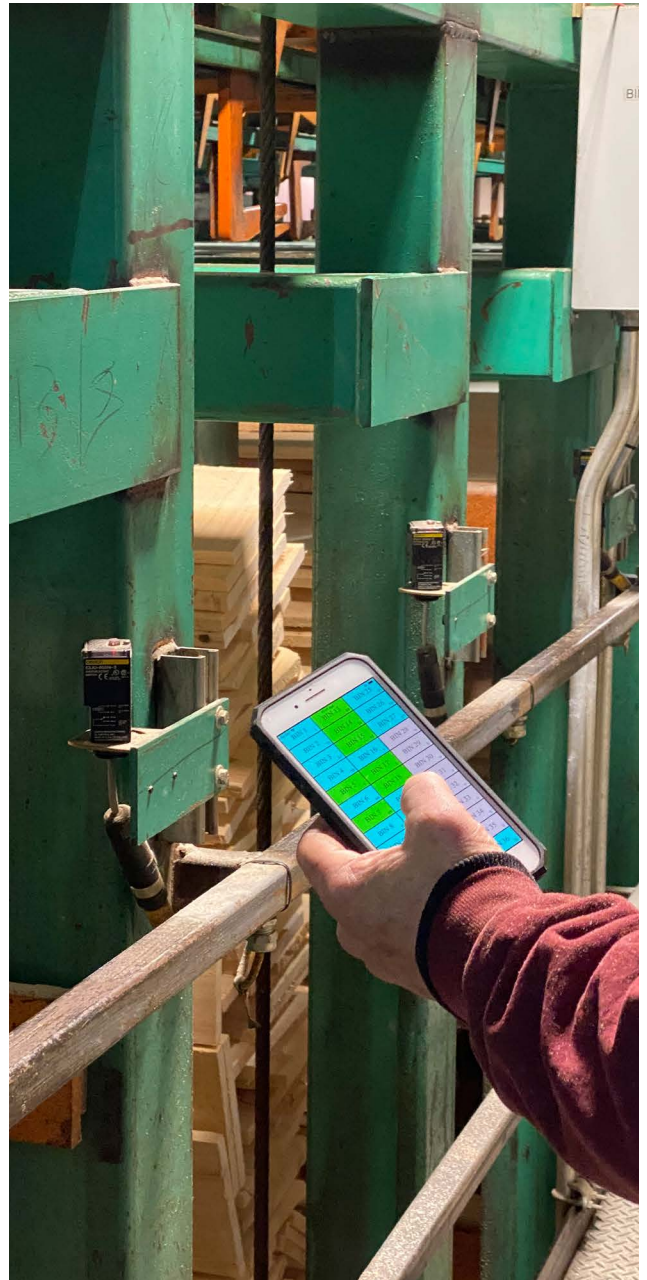

Mobile BinTender™ is Progress Engineering's innovative smartphone application that acts as a mobile partner to the fixed workstation sorter controls bin monitor. Mobile BinTender™ allows the user to monitor and control bins beyond the limits of their fixed workstation.

THIS APPLICATION FEATURES:

- A design allowing single-handed operation, which is multiple user configurable
- WiFi communication to Sorter Control System
- A Bins Overview status screen including:
 - Bin Available, In-Use, Full Status
 - Current Sort Allocated to Each Bin
- Individual Bin Control screens including:
 - Raise, Lower, Discharge Pushbuttons
 - Discharge Chain Control Pushbuttons
 - Run Number, Sort Number, Description
 - Percent Full Status
 - System Status
